With these changes King Ocean is offering the following suggestions to assist in securing drivers, diminishing pickup and delivery delays, and reducing additional costs:

- Ensuring final delivery/ pick up locations are ready to receive drivers to limit waiting times
- Offering flexible receiving and exporting dates and times at warehouse locations
- Submitting booking request or Inbound delivery order with ample time, allowing for sufficient time to secure truck power
- Keep the gross weight within legal limits.
- Not penalizing drivers with late fees, restocking fees or inspection fees if they are running late or need to reschedule, keep in mind that weather and traffic runs into the 11 hour driving time and could add an additional 10 hours of rest.
